

Internet Safety

Do you know how to recognize danger online? Put your skills to the test by sorting the following scenarios into two categories, safe and unsafe, in the boxes on the right.

Scenarios

- A. Nikole uses the same password for everything.
- B. Lee posts his address on social media.
- C. Dylan checks reviews before downloading apps.
- D. Oliver talks to someone he doesn't know online.
- E. Mei updates her password regularly.
- F. Kayla buys something from a sketchy website.
- G. Lila clicks on a link from someone she doesn't know.
- H. Sofia uses two-factor authentication.
- I. Dominique installs malware protection software on her computer.
- J. Kai allows his devices to update regularly.
- K. Mallory ignores her privacy settings.
- L. Eden sends her bank account number over the internet.
- M. Lucas uses a passcode on his phone.
- N. Jumon only visits websites that he trusts.

Safe

Unsafe

Application

List three things you can do to improve your safety when online:
